2018 - 2019 Associate in Science: Pre-Dentist Pathway

Arts and Sciences

Associate in Science: Pre-Dentist Pathway

All Pathways are design to transfer to a four-year institution for eventual completion of a BA/BS or BFA degree.

Dentistry offers stimulating career options for students interested in earning credentials as a dentist. In addition to private practice, excellent opportunities exist in teaching and research, careers with government agencies, or in industry. The majority of practicing dentists are general practitioners. The remainder are dental specialists who limit their practices to one of the nine dental specialities. In addition to four years of dental school, two or more additional years of dental speciality education are required.

AA and AS degrees require completion of a minimum of 60 semester hours of credit, but pathways may include extra hours to meet university baccalaureate degree plans. Completion of hours beyond 60 may not be required to meet AA or AS graduation requirements but is recommended based on programs offered by intended transfer institutions.
